St. Louis Post-Dispatch - Hot spot, fumes prompt concern at Bridgeton landfill - 10/30/12 -

Pattonville fire officials are concerned about rising underground temperatures at a north St. Louis County landfill and an odor that's generating complaints from people who live and work in the area.

KMOV Ch. 4 St. Louis - Rising landfill temperatures threatening underground nuclear waste -

10/29/12 - News 4 viewers reported a terrible smell coming from a landfill in Bridgeton. After investigation it seems the problem may be more than just a foul odor. The Pattonville Fire Department says what's causing the smell is an underground problem that's growing and there are worries it may reach radioactive waste buried nearby. <http://www.kmov.com/news/editors-pick/Ray-Preston--News-4-176325371.html>
